Ciljevi projekta: naučna politika

- formirana je i počela je sa radom Radna grupa za otvorenu nauku
- u pripremi je nacionalna platforma za otvorenu nauku
- deponovanje produkcije nastale u okviru republičkih projekata će najverovatnije biti obavezno

Ciljevi projekta: tehnički kapaciteti

Formirati institucionalne repozitorijume na svim srpskim (državnim) univerzitetima za potrebe deponovanja naučnih i umetničkih publikacija.

Razviti i implementirati nacionalni portal otvorene nauke kao čvorište za pristup naučnim publikacijama i podacima o naučnoj produkciji.

The institute of parole in the positive legislation of the Republic of Serbia

Simić, Boban (2012)
Projects: MESTD | Development of Institutional Capacities, Standards and Procedures for Fighting Organized Crime and Terrorism in Climate of International Integrations (179045)

The paper gives a brief analysis of conditional release as an extremely significant criminal law institute, and also as a political and criminal correctional measure, which is a strong incentive, stimulating the convicted individuals to behave in an appropriate way while serving the pronounced sentences. In addition to the introductory part, which points to the concept and characteristics of this institution, there is a brief overview of the structure of parole in the positive legislation of ...

Ciljevi projekta: stručna obuka

Razviti i unaprediti znanja, veštine i motivaciju članova akademske i šire zajednice za potrebe održive primene principa otvorene nauke putem organizovanja seminara, predavanja, konferencija i edukativnog materijala namenjenog istraživačima, urednicima časopisa i svim zainteresovanim potencijalnim korisnicima repozitorijuma i portala iz oblasti privrede i obrazovanja.

Ciljevi projekta: stručna obuka

The screenshot shows the 'Where can I share it?' interface of the Can I Share It tool. The interface is teal and white. At the top, it asks 'Where can I share it?' and provides a brief description of the tool. Below this, it asks 'What is the DOI of the article you want to share?' and shows a text input field containing the DOI 'https://doi.org/10.1016/j.chb.2014.07.010'. There is a 'Where Can I Share It?' button. Below that, it asks 'Are you a co-author of this article?' and shows a dropdown menu with 'Yes' selected. To the right of the dropdown, it says 'You can share the metadata and abstract as well as a link to the article on the respective publishers' platforms on:' and lists three options: 'Academia.edu', 'ArXIV', and 'BioRxiv'. Below this, it says 'You can share the accepted manuscript on:' and lists four options: 'ArXIV', 'BioRxiv - after the embargo expired', 'Center for Open Science - after the embargo expired', and 'Institutional Repository - author showcasing (public)'. In the background, there is a blurred screenshot of a search results page for 'Академик' with several search results listed.

Ciljevi projekta: integracija

Promovisati nacionalni portal otvorene nauke kao modalitet za transfer tehnologija i razmenu informacija između nauke, privrede, kulturnih i obrazovnih ustanova i društva u celini (društveno odgovorna nauka, nauka za društvo, društvo u nauci).

Kreiranje registra i profila istraživačkih laboratorija, centara, timova, startup kompanija, nosioca prava na patente i umetnička dela.
