

Date: January 29th, 2018

At the fifth Project Management meeting held on January 29th, at the University of Zilina, the external evaluator was presented and nominated by Ss. Cyril and Methodius University-Skopje and voted unanimously by Consortium. The Consortium of the project reached the following

DECISION

Prof, Dr. Sc. Miloš Knežević, from the University of Montenegro, Faculty of Civil Engineering, Podgorica, Montenegro, is appointed as the external evaluator for the K-FORCE Project.

The aim of the External evaluation of the K-FORCE project is to assure optimal quality and results of the project. The External quality control will include: keeping to the time plan, dissemination, horizontal & vertical coordination of WGs, peer-review of new learning material and efficiency of the whole process.

Rationale: Prof. Miloš Knežević is appointed as external evaluator, based on the following criteria:

- Compliance with, and understanding of the goals of the project;
- Understanding of the educational landscape and educational process in Balkan countries, and adequate background in educational process;
- Capacity for realization of the foreseen methodology;
- Ability to meet the required timetable for development of instruments, data collection, analysis and reporting;
- Relevant experience;
- Management of any existing or potential conflict of interest identified by the Project team;
- Brief CV of the person.

Prof. Miloš Knežević is a Full professor at the University of Montenegro, Faculty of Civil Engineering, Podgorica, Montenegro. His brief CV is part of this information. In period 2010-2016 he was Dean and in period 2005-2010 Vice dean for financial affairs. He is familiar with the engineering study programs, especially in WB Countries, and he has an extensive experience in accreditation processes. He participated in a number of international projects.

He follows the K-FORCE activities from the beginning of the project and as Invited speaker at the 1st International Symposium "Knowledge For Resilient soCiEty KFORCE", organized in the framework of the project, he presented his experience in the field of risk assessment in case of natural disasters and measures for reduction of consequences.
