Review of survey parameters:

- mass survey → as much subjects as possible
- short and easy to complete (5-10min)
- target groups were university and high school students from Albania, Bosnia and Herzegovina and Serbia

Three segments of the survey:

1. Previous experience
2. Personal opinions and stances
3. Education aspirations

What went on since Tirana?

- Survey text corrected and adopted
- Survey translated into Serbian/Bosnian and Albanian
- Google Forms created

- Promotion started on March 21st and ended on April 17th
- Use of online resources and organizational infrastructure

Youth Safety Culture Survey

The aim of this survey is to gain an understanding of how safe and prepared for natural and manmade disasters the young in Western Balkan countries feel.

The survey is conducted as part of the Knowledge for Resilient Society (K-FORCE) project (<http://kforce.europa.eu>), funded by the European Union under the Erasmus scheme. The information will be used to better develop and implement curricula in the field of Disaster Risk Management and Fire Safety at Universities in Serbia, Albania and Bosnia and Herzegovina.

The survey is anonymous and will take you approximately 5 minutes to fill out. Please faithfully represent your beliefs and knowledge while answering the questions.

In order for you to find it easier for you to fill the survey out, we will give you a few definitions: A disaster is an event, caused by natural elements or man, that can cause catastrophic consequences to human lives and material objects, for example an earthquake, flood, fire etc. Disaster risk management is the assessment of how likely is a disaster to happen in an area and what should be done in order to minimize the consequences.

Thank you for your time!

Who filled out the survey?

Albania

486

Bosnia and Herzegovina

469

Serbia

396

+13 = 1364

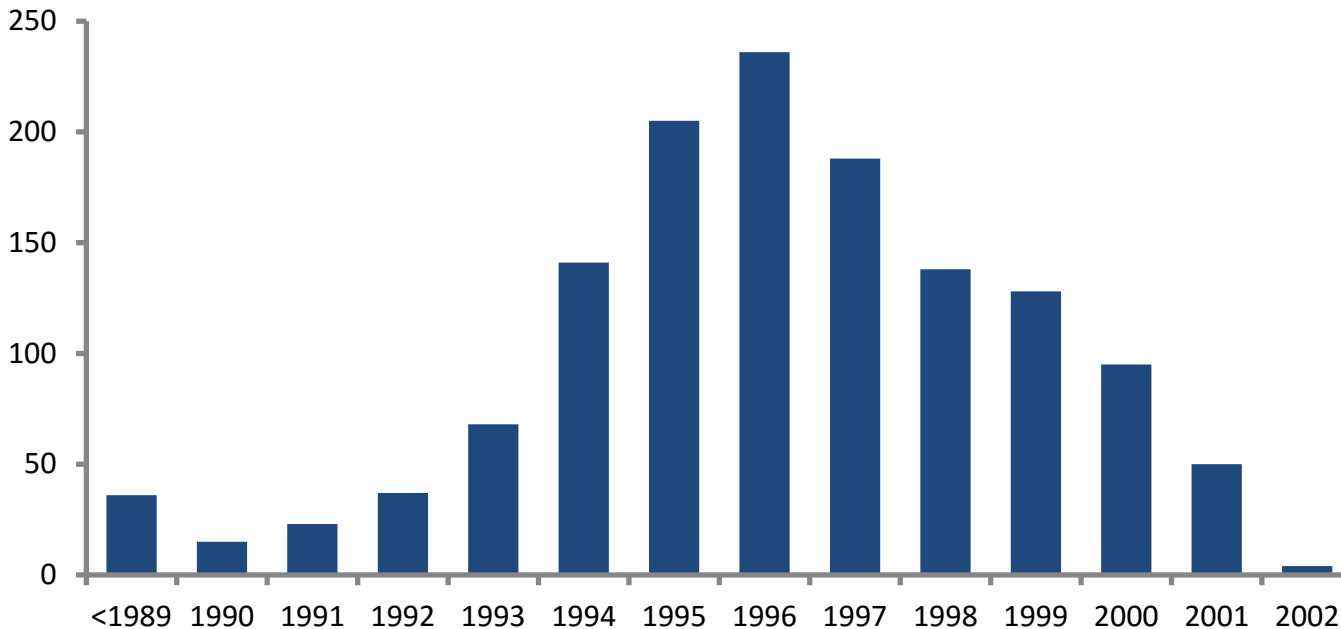

Cities:

1. Tirana (386)
2. Novi Sad (189)
3. Belgrade (161)
4. Teslić (146)
5. Banja Luka (114)
6. Sarajevo (45)
7. Tuzla (45)

Who filled out the survey?

Year of birth:

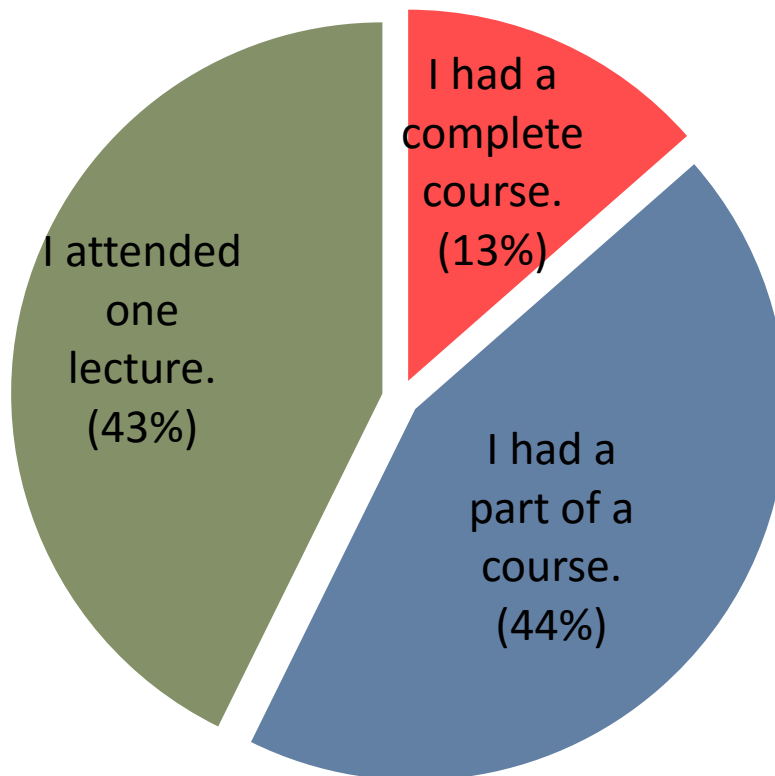

University:
978
71.7%

High School:
370
27.1%

Previous experience: formal

I had a chance to learn about DRM & FSE as part of my High School/University curriculum or during a lecture organized at my School/University.

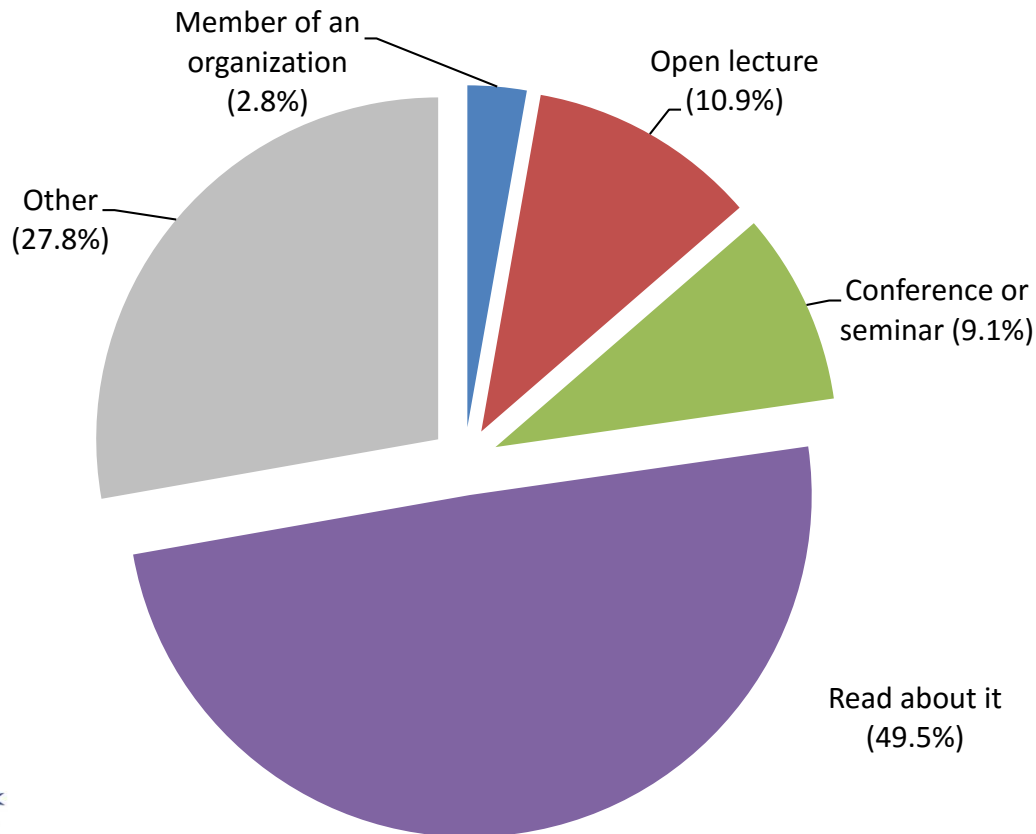

Yes: 41.2%

Previous experience: un-formal and informal

I had a chance to learn about DRM & FSE outside of my School/University.

Yes: 61.5%

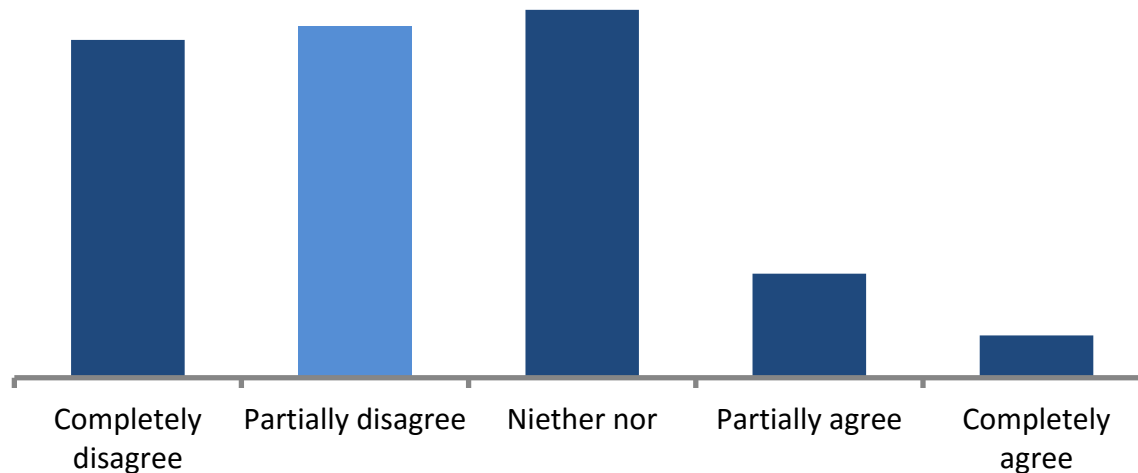

Personal opinions and stances

I know which institution(s) deal with disaster risks and fire safety in my country.

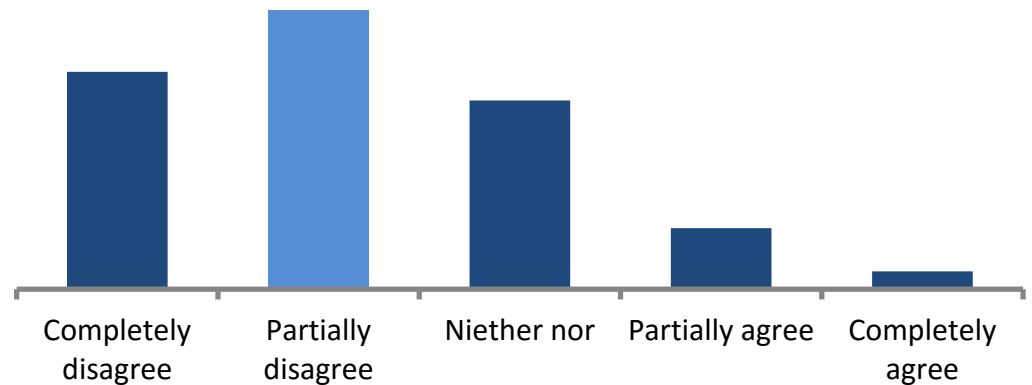

Yes: 45.4%

I am familiar with actions the institutions in my country take in order to deal with disaster risks and fire safety.

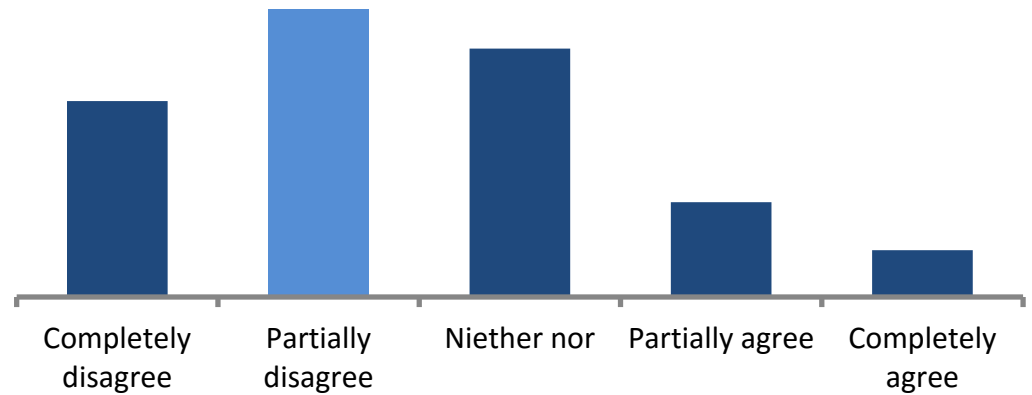

Personal opinions and stances

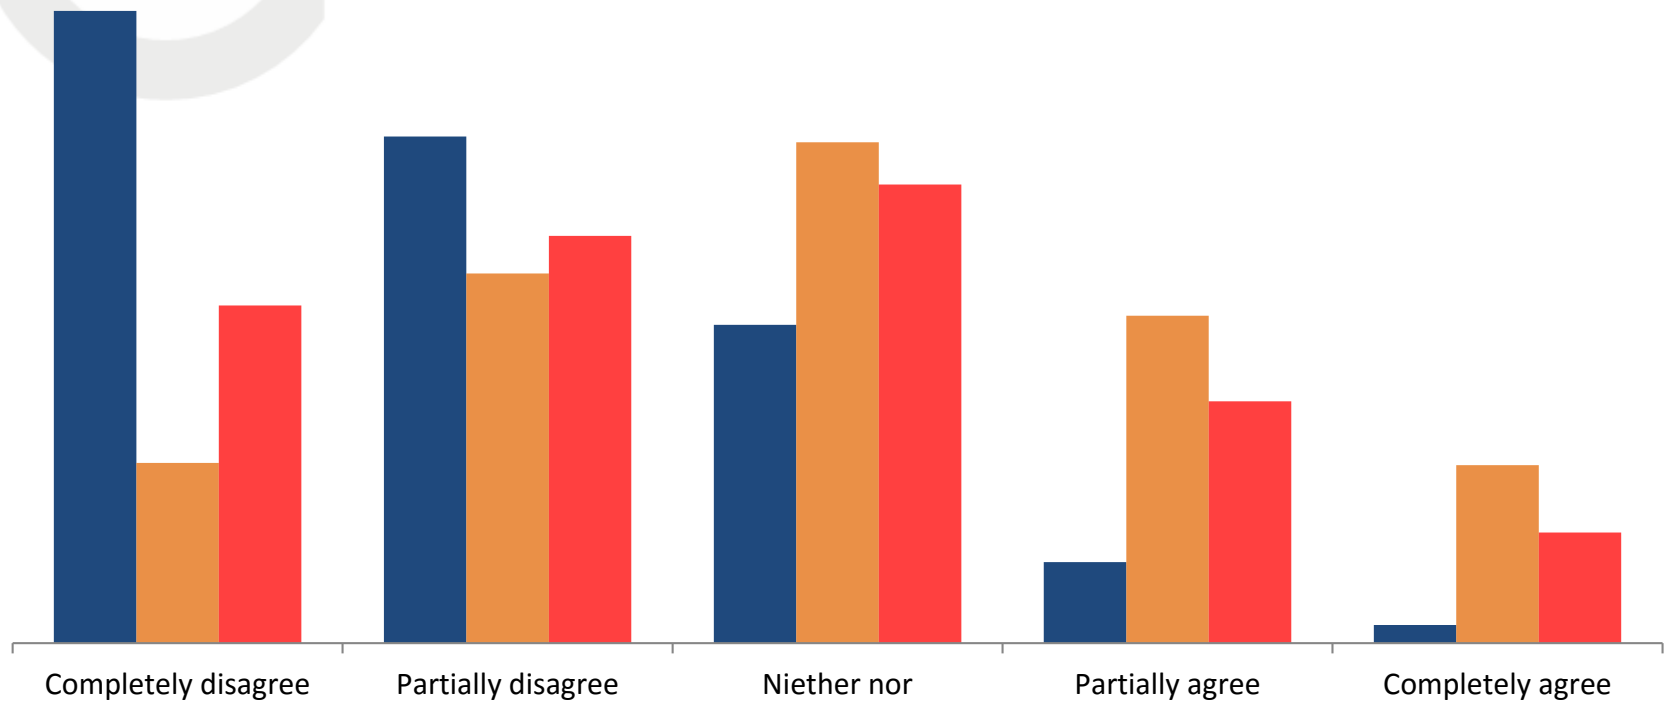

Enough attention is being given to disaster risks and fire safety in the general public and media.

My community is well aware of the dangers of disaster events and fires.

Personal opinions and stances

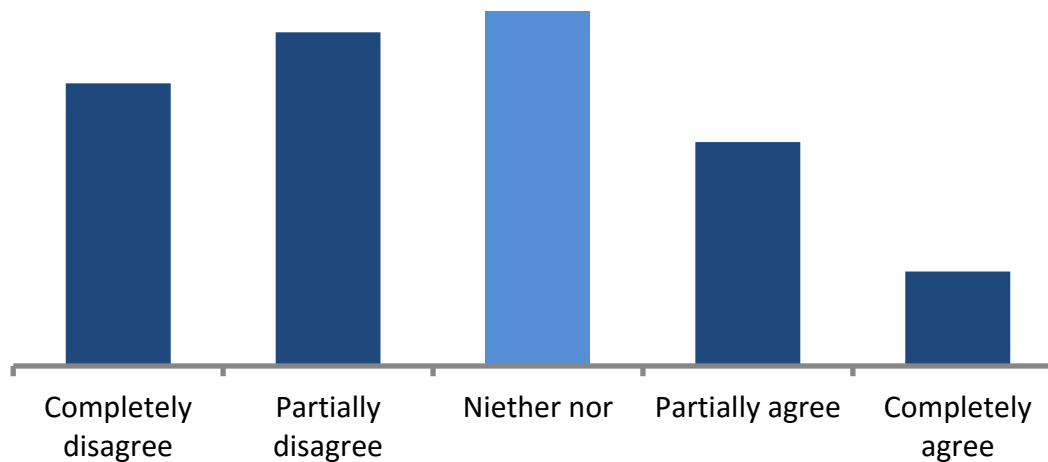

■ *My community is well prepared and equipped for disaster events and fires.*

■ *My family is aware of disaster and fire risks and prepared for emergencies.*

■ *I feel prepared for a disaster event or fire.*

Personal opinions and stances

I am acquainted with the safety protocols I should follow in case of a disaster event or fire.

Previous experience

Evacuation exercises are organised at my School/University.

I don't know: 18.5%

Yes: 5.8%

I have taken part in an evacuation exercise at my School/University or other institution.

Yes: 11.2%

Half of these people took part
in only one exercise.

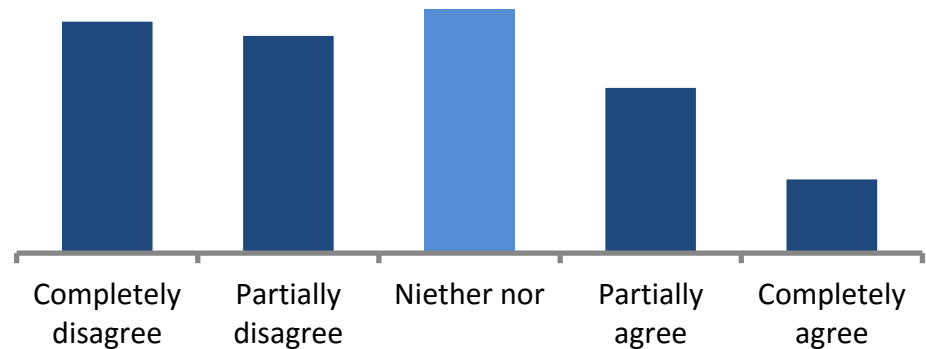

I know how to use a fire extinguisher.

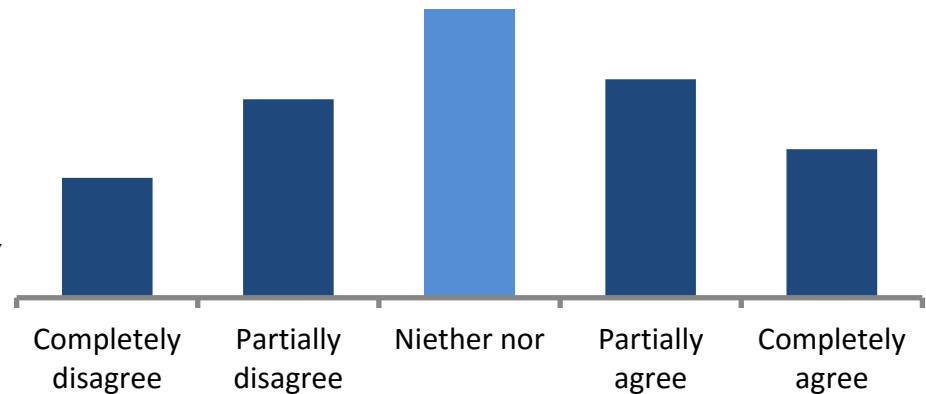

Yes: 44.0%

Personal opinions and stances

I pay attention to the emergency signalization and evacuation plan when I enter a public building or café/restaurant.

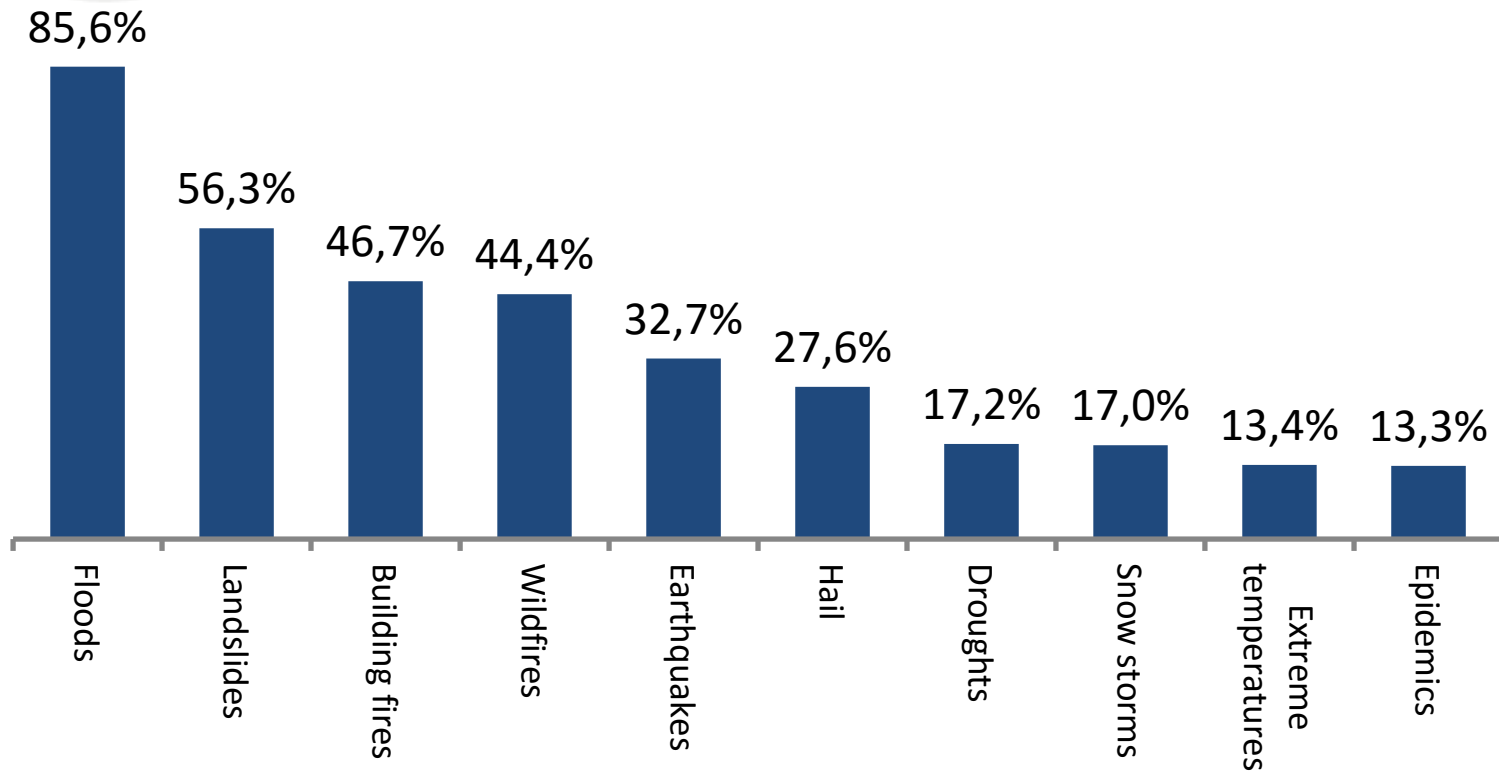

I would know how to safely exit any building in case of an emergency.

Personal opinions and stances

The main hazard(s) in my country are:

Do they know formal education exists?

I knew that some Universities offer study programmes in DRM or FSE.

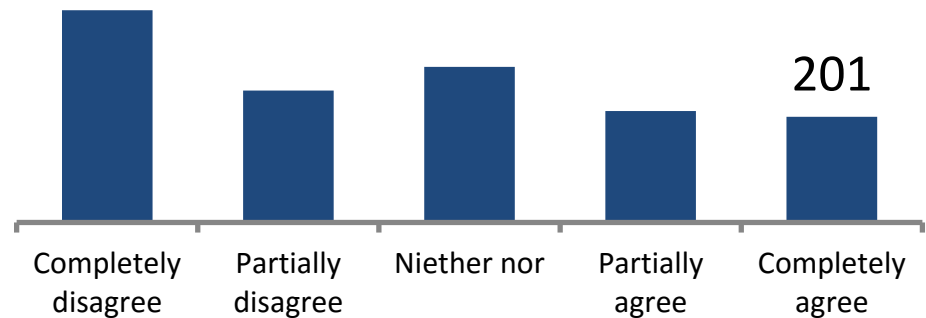

Yes: 30.1%

Without Novi Sad (59.8%):

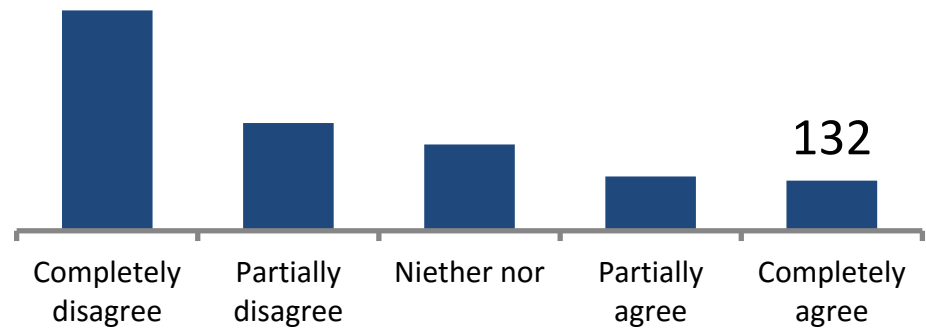

Yes: 25.4%

Education aspirations

I would be interested in studying DRM or FSE at University.

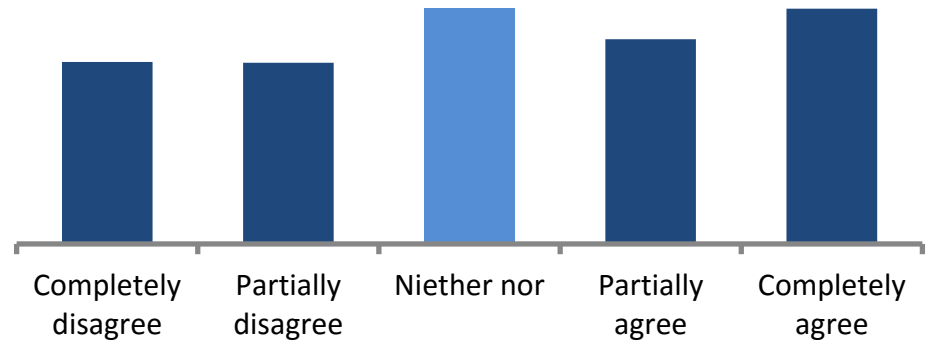

I would be interested in obtaining a Master's degree in DRM and FSE.

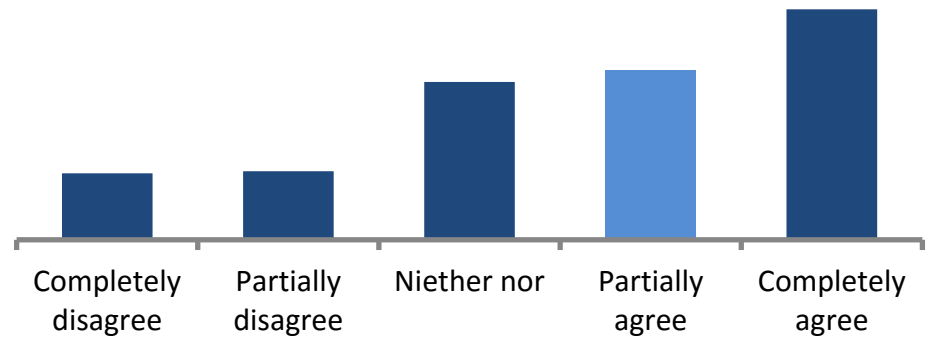

Education aspirations

I would attend an elective course in DRM and FSE (if one existed) at my University.

I would attend a free course in DRM and FSE.
