LLL & PROFESSIONAL COURSES AT FSE UNIZA

FSE provides a number of courses outside the standard study programmes.

These courses are open for professionals as well as students (often at a discount rate).

There are three types of courses:

- 1. Courses which are required for obtaining a professional certificate or license for undertaking a specific work position, e.g. fire safety design specialist*
- 2. Courses which are required for renewing a professional certificate or license, e.g. fire safety design specialists – recertification every 5 years*
- 3. Other courses – aimed at specific topics such as crisis management in public administration, security management for private companies etc.*

EXAMPLES OF COURSES OFFERED BY FSE UNIZA IN THE FIELD OF FIRE SAFETY ENGINEERING

Group 1 – obtaining a professional certificate or license

Basic preparation of fire safety design specialists (200 hours) and fire safety technicians (120 hours)

Group 2 – renewing a professional certificate or license

Actualisation preparation of fire safety design specialists (50 hours) and fire safety technicians (30 hours)

Group 3 – other courses

Introduction to fire safety for public authority employees (20 hours)

Group 1 & 2 usually require accreditation or approval by the responsible authority, e.g. Ministry of Interior

Co-funded by the
Erasmus+ Programme
of the European Union

OTHER COURSES OFFERED BY FSE

- *Effective crisis management,*
- *Security systems management in person and property protection,*
- *Information systems security for public organisations and private companies;*
- *Security manager for public organisations and private companies;*
- *Security staff course;*
- *Health & safety in workplace;*
- *Safety advisors for ADR, RID, ADN....*

COOPERATION WITH PUBLIC AND PRIVATE ORGANISATIONS

FSE has a strong cooperation with a number of public and private organisations in the following areas:

- *Student internships and industry theses*
- *Courses and workshops for professionals*
- *Research and education projects cooperation*
- *Contractual and consulting work*
- *Standardisation*

Areas to improve cooperation:

- *Industry PhDs and MScs*
- *Life-long learning schemes – multi-stakeholder and legal issues*

Co-funded by the
Erasmus+ Programme
of the European Union

EXAMPLE OF COOPERATION

Cooperation partners: Dept. of Fire Engineering, Fire and rescue service headquarters, private companies (funding)

Cooperation form: Series of building fire safety design workshops

Target audience: Fire safety inspectors (AHJ), Fire safety design specialists, Architects, Designers, usually around 60 attendees

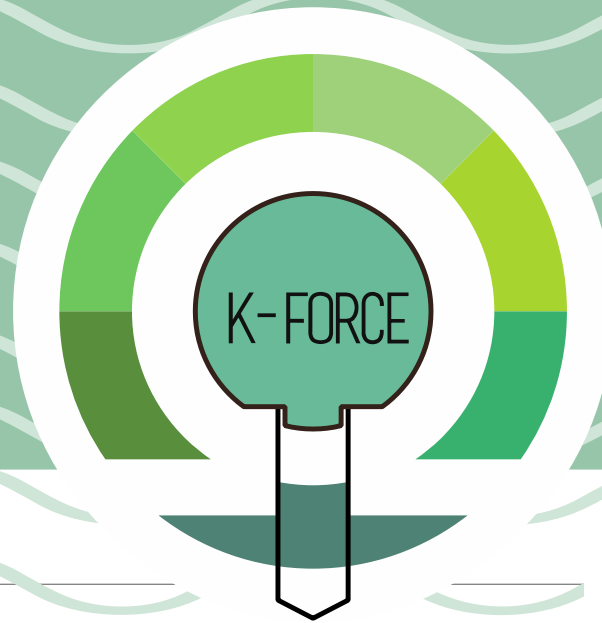

Topics are selected to address actual problems in this field, e.g. multi-storey timber frame buildings, separation distances...

Particularly good for exchange of information and knowledge in „gray“ areas.

Always a good discussion among the parties that do not meet very often.

Not accountable towards LLL since no credit scheme exists in this field.

Co-funded by the
Erasmus+ Programme
of the European Union

Thank you for your attention!
